

Saturn ION Red Line in Chili Pepper Red shown with optional equipment.

**2006 Saturn ION Red Line** When tested at our high-performance proving grounds, the standard supercharged and intercooled engine with 200 pounds-feet of torque accelerated the Saturn ION Red Line to 60 mph in 6.2 seconds. Its 205 horsepower helped propel it to a top speed of 144 mph. The suspension helped deliver the cornering power to generate 0.85 lateral Gs. And despite its name, we assure you the available Competition Package is street legal. Visit [saturn.com/ionredline](http://saturn.com/ionredline).
