

2007 SATURN ION RED LINE

When tested at our high-performance proving grounds, the standard 205-horsepower, supercharged and intercooled engine accelerated the ION Red Line from 0 to 60 mph in 6.2 seconds. Its racetrack-tuned springs, shocks, bushings and stabilizer bars helped deliver the cornering power to generate 0.85 lateral Gs. And despite its name, we assure you the available Competition Package is street-legal.

¹ Official EPA estimates not yet available. Estimates based on GM testing. ² Cargo and load capacity limited by weight and distribution. ³ Always use safety belts and the correct child restraint for your child's age and size. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the vehicle Owner's Manual and child safety seat instructions for more information. ⁴ Head-curtain side-impact air bags are designed to help reduce the risk of head injuries to outboard front- and rear-seat occupants during certain side-impact collisions. ⁵ Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for system limitations and details. ⁶ XM is available only in the 48 contiguous United States. Service fees apply. Visit gm.xmradio.com for more details. ⁷ Included and available only with Red Line Competition Package.
