

## 2007 SATURN OUTLOOK

Open the door to the roomiest Saturn ever. Eight adults can sit comfortably, enjoying the ample shoulder and knee room. The Smart Slide feature makes it easier for passengers to get to the third row. StabiliTrak, head-curtain side-impact air bags\* that protect outboard occupants in all three rows and enhanced rollover protection make the new Saturn OUTLOOK big on safety. Build yours at [saturn.com/outlook](http://saturn.com/outlook). Available early 2007.

\*Always use safety belts and the correct child restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the vehicle Owner's Manual and child safety seat instructions for more information. Head-curtain side-impact air bags are designed to help reduce the risk of head injuries to outboard front- and rear-seat occupants during certain side-impact collisions.

Saturn OUTLOOK XR in White Diamond Tricoat (extra-cost color). Preproduction model shown. Actual production model may vary.
