

Saturn AURA XR in Silver Pearl shown with optional equipment.

2008 Saturn AURA™ Sport Sedan

Rethink keeping up with the Joneses. The AURA is our sport sedan that clearly offers more than just four doors. An available 252-hp V6 engine delivers seamless power along with an EPA estimated 26 MPG highway fuel economy. Over 55 innovative noise-reduction features keep the luxurious cabin surprisingly quiet. And of course, the five-star crash safety rating* will give your neighbors even more to talk about.

*Five-star rating is for the driver and front passenger seating positions in the frontal crash test and for the front and rear seating positions in the side impact crash test. Side-impact crash test rating is for the model tested with standard head-curtain side-impact air bags (SABs). Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov).
